Gain Efficiency in Material Handling

Made in the USA

The Bulk Cart-HL sports a massive holding capacity of 71 cubic feet, allowing it to meet the extreme requirements when it comes to moving large amounts of material or product. The solid wire mesh panels located on the front and back form a sturdy metal cube along with the metal sidewalls. Detachable cargo nets are hinged for easy adjustment and prevent items from falling out of the cart.

Benefits:

- Holding capacity of 71 cubic feet
- Tested and rated for 1,100 lb. stationary; 650 lb. in motion
- 6 heavy duty casters provide easy maneuverability
- Various caster configurations available
- Hinged cargo nets with velcro closure to secure load
- Reusable equipment: No disposal of pallets or shrink-wrap
- Comprehensive two year warranty
- Black molded plastic will not fade, dent or discolor
- Ships fully assembled
- Bases are LEED® certified

Specifications
