EFFIZIENT

Gain Efficiency in Material Handling

The Peg-board version of our **opti cart** is used to hold “peg-able” items such as office products, snacks, candy, gift-cards and cosmetics. Our Peg-board Cart is ideal for restocking checkout lanes and point-of-purchase displays. Sales Associates spend more time with your customers and less time searching for merchandise.

Benefits:

- Improved back-room organization
- Reduced time and labor for shelf replenishment
- Lower inventory levels through product visibility & mobility
- Bin to store non-peg items as well
- No tools required for assembly and disassembly
- Available in 23” and 28” width
- Compact design for in-aisle maneuverability
- Molded plastic will not fade, dent or discolor
