EFFIZIENT

Gain Efficiency in Material Handling

Beverage inserts convert our **opti cart** from a replenishment cart into the ideal tool to replenish your wine, beer or liquor shelves. Bottles and/or cans are visible on the shelves while soft plastic rims secure the beverage containers in position and keep them from rattling. The beverage insert features four different sized slots to fit a variety of bottle or can sizes.

Benefits:

- Improved back-room organization
- Reduced time and labor for shelf replenishment
- Decreased inventory levels through product visibility
- Adaptable to product characteristics
- Different caster configurations available
- No tools required for assembly and disassembly
- Compact design for in-aisle maneuverability
- Tested and rated for 1,100 lb. stationary; 650 lb. in motion
- Molded plastic will not fade, dent or discolor

Specifications

Dimensions (W x L):	23.62" x 32.4"	Load Capacity Static:	1,100 lb.
Total Height:	60.25"	Load Capacity Dynamic:	650 lb.
Effective Height:	52.25"	Weight as shown:	74 lb.
